INTERNET Safe Education

Parent & Community Education

INTERNET SAFETY AND CYBERBULLYING PRESENTATIONS

Customised Sessions

Every training session delivered by ISE is tailor made to your individual requirements including:

Length of Sessions
Audience Size
Content & Topics
Year Levels

Our presentations show parents that it is not about devices or programs, it is about applying their physical world mindsets and skills to their children's online world. The audience will witness real life predatory behaviour clearly displaying offender methodology. This will create a passion within audience members knowing their involvement is not optional, it's essential.

Our aim is to leave the audience feeling empowered to take control of technology, set rules and boundaries in their home and work hand in hand with teachers and educators. Every audience member, regardless of technological experience, will walk away with simple, powerful and effective messages.

> Every time my child logs on they have access to everything the adult world has to offer - I have to be involved - I may be the only line of defence

Testimonial

Mrs Joanne Watkins
Head of Students / St. Columba's Girls College

It was the most successful parent information evening and student seminar day I have experienced.

INTERNET
Safe Education

Parent & Community Education

Topics include:

- Protective and Preventative Measures
- Offender Methodology
- The Law and the Internet
- Social Networking
- Instant Messaging and Communication
- Online Gaming
- Cyberbullying
- Sexting

Our Messages

Our four key messages:

- The internet is a safe and valuable place
- Our children need to be part of that world
- As parents we already possess the skills
- We have to be a part of that process

Sporting Organisations

The presentations clearly outline that it is not about devices or programs, it is about applying their physical world mindsets and skills to their children's online world. The audience will witness real life predatory behaviour clearly displaying offender methodology. This will create a passion within audience members knowing their involvement is not optional, it's essential.

Our aim is to leave the audience feeling empowered to take control of technology, set rules and boundaries in their home and work hand in hand with teachers and educators. Every audience member, regardless of technological experience, will walk away with simple, powerful and effective messages.

About Internet Safe Education

ISE creator, Brett Lee, worked as a Queensland Police Officer for 22 years, 16 of those as a Detective predominantly in the field of Child Exploitation. In his last five years of service, he was a specialist in the field of undercover internet child exploitation investigations.

Brett has been personally involved in the online investigation, arrest and prosecution of numerous offenders, whose medium for preying on children is the internet. Further to Brett's experience, he has completed the FBI Advanced Internet Investigations Course and has worked with the FBI Innocent Images Unit, Maryland USA, the Department of Homeland Security Cyber Crimes Centre, Virginia USA and the San Jose Internet Crimes Against Children Task Force, California USA.
